DETAILED ACTION

Remark

1. Claims 1-13 and 28-49 have been previously canceled, and claims 14-27 are pending for reconsideration.

Allowable Subject Matter

2. Claims 14-27 have been allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 14 and 21, the closest prior art to Nadan fails to teach or suggest each and every feature a method for retrieving product information including at least product/service identification or description and related to a commercial event and associated with a remote location on a communications network, comprising the steps of: receiving proximate a user location a broadcast from a broadcast network including within the broadcast a data set that is associated with the product information, extracting the data set from a non-video portion of the broadcast in an extracting system; and operating a connection device at a time later than the broadcast to connect the user location to the remote location on the network that is associated with the product information in response to extracting the data set to enable retrieval of the product information from the remote location, which remote location is different than the location from where the broadcast originates. Nadan does not suggest "a method for retrieve

product information" that is related to a commercial event and associated with a remote location, which is different from the broadcast location, on a communication network.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
